Right Whales are baleen whales, feeding on copepods (tiny crustaceans) by straining huge volumes of ocean water through their baleen plates, which act like a sieve. Interesting fact is that Right Whales can vocalize and make sounds such as whoops, screams and groans. Popcorn, is a Male Right Whale, his most distinct marking is the reason for his very cool but fun name: People think the bits of callosity on his head look like popcorn.

Wolf Moon

Artist Name: Gary A Crosby MMM CD CWO (Ret'd)

Medium: Sculpture in Hardwood

Price: 385.00 Canadian

Description: The Wolf Moon is a sculpture of a howling wolf in the moonlight. In Ontario's Algonquin Provincial Park you can hear the songs of the wolves cutting across the night sky. Years ago, I was sitting around a campfire beside a pristine clear, calm lake on a white water canoe trip deep into the park. When suddenly, I could hear the wolf songs cutting through the still night. If you have never had the opportunity, you should try listening to nature and feel its natural raw sounds. Just listen, and you will be surprised at the sounds you can hear when quietly sitting beside that still lake deep in the wild Ontario park. If it's not on your bucket list, it should be. The Wolf Moon is a reminder of those wild sounds.
