Monarch Spirit

Title: "Monarch Spirit"

Artist: Gary A Crosby MMM, CD.

Medium: Wood carving, Acrylic

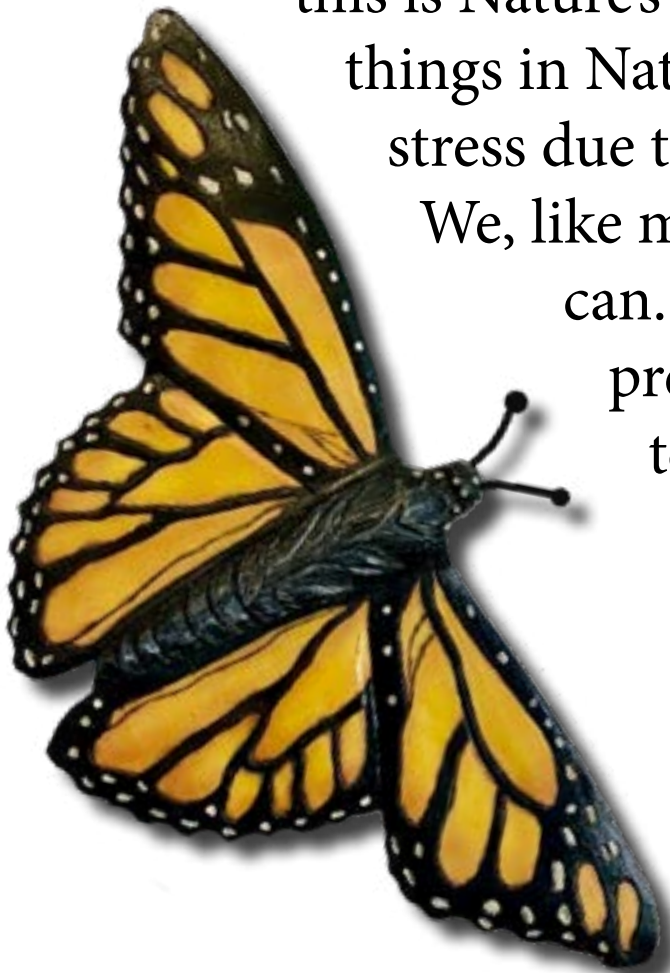

Material: New Brunswick Hardwood

Size: 41cm x 34cm x 2.5cm thick

Date: 02 Jan 2025

Details: The Monarch is an incredible Butterfly making the trip down to the mountains of Mexico and back to New Brunswick every year. The combination of colours and size is outstanding. You could almost say this is Nature's actual piece of artwork. Like all things in Nature, these days they are under stress due to the loss of their environment.

We, like most people, are doing what we can. I will give 10% of all sales to the preservation of the Monarch Butterfly with every butterfly sale.

Our Monarchs are carved from solid New Brunswick hardwood such as Oak, Maple, Cherry and Walnut. They are carved using traditional carving tools, such as gouges and mallets.
