Details: In this artwork, I wanted to create a link between the Canadian Tiger Swallowtail Butterfly and humanity. The Tiger Swallowtail is an incredible Canadian Butterfly. This design was created with the Art Deco era and a touch of Art Nouveau in mind, featuring soft curves and a natural, free-flowing design, with a touch of Ivory and Ebony colour. This is an exquisite, creative work of art and truly one of a kind. Hand-carved out of New Brunswick hardwood and finished with natural beeswax from Fredericton, New Brunswick.
