Darkwood woodcarving

Title: Luna Moth Soldier

Series: Wind Whispers

Artist: Gary A Crosby, MMM, CD.

Media: Butternut Wood Sculpture & Acrylics

Date: 8 January 2026

Description: This is my first sculpture of 2026. The design is based on a novel idea I have been researching for about a year, as a Fantasy Fiction novel about a race of beings known as the Wind Whisperers, half-human and half-insect. In this case, the half lepidopteran superfamily Papionoidea and the human.

The Luna Moth Soldier are known for their speed and tactical skills. They can track their prey from great distances in the dark and can close in and destroy their enemies with cunning tactical skills. It is said that once they have locked onto you, there is nowhere to run or hide.

Hand-carved out of Butternut wood and designed to last years. Each of my carvings comes with a 50-cent coin in the sculpture from the Royal Canadian Mint to date the artwork. Plus, there is a small time capsule built into the sculpture, hidden behind wax seals.

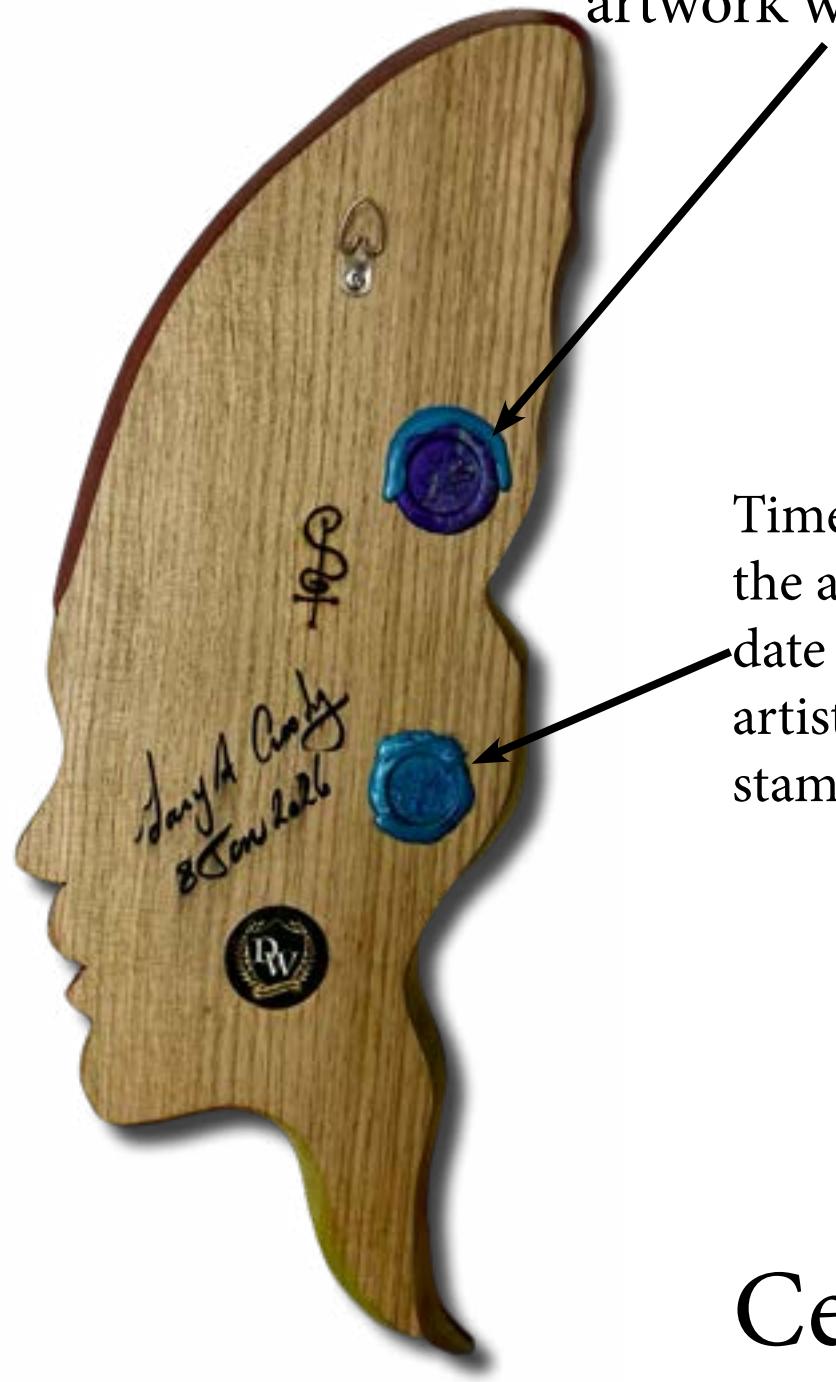

Carved by hand using  
traditional Tools.

Darkwood woodcarving

A 2026, coin from the Royal Canadian Mint.  
Sealed behind wax stamp. Dating the year the  
artwork was created.

Time-capsule explaining why  
the artwork was created with
